Among the menu of curriculum options available, On Track offered Blake a High School Equivalency program that is perfect for students such as Blake that have moved into the Pro ranks. It is at this point that finishing school becomes quite the challenge. Traditional school is no longer an option for serious racers and this has allowed On Track to help many students, such as Blake achieve their goal of receiving a cutting edge education.

Blake: "I have tried many different home schooling programs and none of them seemed to work for me. When I discovered On Track, they were able to lead me to a customized program that was designed for students like me. This helped me to move forward in my career as a professional motocross rider and achieve my high school diploma at the same time."

Andrea: "Blake has been an On Track student in the High School Equivalency Diploma program this year and I am so happy to announce his graduation at this time. I have a great deal of respect for Blake, he demonstrated a responsible attitude toward his courses as well as a desire to learn about finances and go the extra mile by earning extra credit in that area. Blake worked with an On Track Learning Coach who we would like to thank also ~ thank you Lisa Jones!"
